Good design
is all in the detail

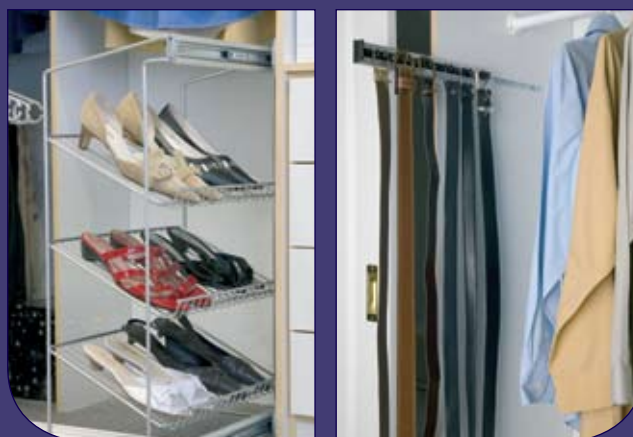

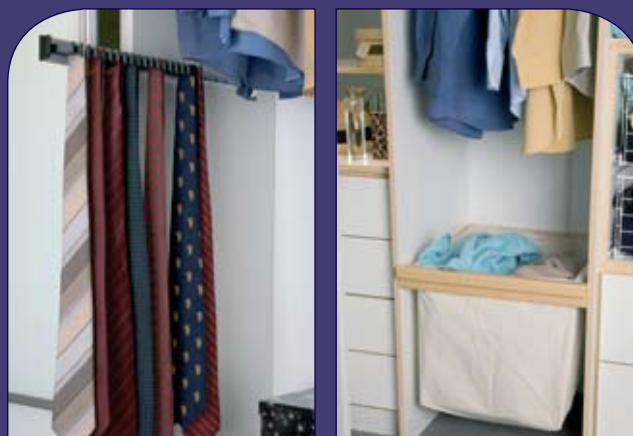

wardrobe accessories

For over 35 years Betta wardrobes have been tidying up Australian homes.

Your guarantee of satisfaction begins with our expertise in manufacturing and installing quality products.

Our consultants will help you design storage solutions beyond your imagination. You benefit from our experience, with practical suggestions and innovative products.

●●●● storage solutions

 **Betta**

Tie Rack

Perfect solution for storing neck ties without creasing and for easy access.

This retractable hanging rail in aluminium and black has the capacity to hold 20 ties.

Belt Rack

Similar in design and practise to the tie rack the belt rack also slides in and out for ease of access and avoids messy coiled belts. Moulded black clips will secure your belts in place.

Shoe Rack

This durable aluminium framed unit consists of 3 tiers for holding and airing between 10-12 pairs of shoes.

The shoe rack glides out on its own rail system to offer easy selection.

Shoe Shelf

By adding shoe shelves, it's a great way to utilise space and organise your shoe collection.

The fixed melamine shelves are specifically sized and spaced to hold ladies and mens shoes.

Trouser Racks

A great way to keep pants organised and crisp. Available in two models, aluminium and black or off white coloured aluminium, and holds between 12-15 pairs of trousers.

Both have sturdy slide out rails for easy access. Compact design offers maximum use of space.

Extending Hanging Rail

Use this extending rail to avoid crushed sleeves on jackets and shirts in spaces too narrow for conventional hanging.

Clothes will be displayed neatly and pull out for easy access on this metal extension arm.

Pull Down Hanging Rail

Significantly increase your hanging space by utilising those too high to reach spaces with this pull down hanging rail.

By pulling on the long handle connected to the hanging rod the rack is easily lowered and spring loaded so it retracts with minimal effort.

Hamper

Made of calico and timber framed, this basket offers a convenient storage space for unlaundered clothes and can be used for other storage solutions.

Comes in two models; on slide out rails or fixed.

Drawers

Designed to accommodate everything from bulky jumpers to dozens of socks.

Melamine drawers are available in three widths 458 mm, 608 mm & 908 mm.

They also are available in two depths 158 mm and 220 mm.

Wire baskets

As an alternative or in addition to solid drawers. Wire baskets offer the benefit of be able to see at a glance where something is stored.

Available in one depth, 200 mm and 2 widths, 458 mm & 609 mm.

Built - in Computer Study

A compact way of adding a study area to a room. Complete with a file drawer and a retractable keyboard shelf.

The shelving is sized and spaced to accommodate your monitor and your computer tower, with additional shelves for books, paperwork and storage boxes. Slide the wardrobe doors closed and the workstation is concealed.
